Important! Freight Delivery Instructions

You ordered a heavy or oversized item that will be delivered by a freight carrier. **Most carriers provide curbside delivery only.**

Standard Freight (LTL) Delivery: Freight delivery is reserved for large, heavy, or oversized items, as well as large-quantity shipments. Products are loaded onto a semi-truck and delivered curbside; you will be responsible for moving the item from the curb to the desired location. Shipping times will vary based on destination, extreme weather, and other variables.

We utilize a variety of LTL carrier options, and as a result, not all delivery interactions are the same. To accommodate this, and prepare you for delivery acceptance, you will receive a tracking email with links to instructions for each delivery. Types of LTL receipt instructions are listed below.

- 1. In Person Freight Receipt:** The carrier will contact you directly to schedule delivery. If you are not available to receive a scheduled delivery, you may be charged a delivery fee on your original payment method. ([Video Instructions](#))
- 2. Remote Delivery Acceptance:** You will be provided a shipping date and tracking for the order in which being home for receipt is optional. If not home at time of delivery, the carrier will document the condition of the package and location it is placed with photos.
